## PLASTIC FILMS

The beauty of Plastic Films is that they are specifically made to be thin so that they wrap around products like skin and yet they should be robust enough to not tear. We make films that are not prone to this quick damage and thus can be used for an array of different purposes. They are delivered to you after a rigorous testing process to ensure their grade.

# PRODUCTS

## TRANSPARENT PLASTIC SHEET

Transparent Plastic Sheets are highly used in commercial setups and even homes. Considering that the grade of plastic used here really matters, we have a strict procedure of testing, which is carried out during the manufacturing process and also when supplying. So be assured that you will only get the best of both worlds with our economically priced products.

# PRODUCTS

## BREATHABLE FILM

Breathable films are manufactured from densely filled polyethylene. They are designed for use in the manufacture of disposable sanitary products – nappies for babies, sanitary towels, incontinence pads, supplies for the chronically ill or other medical applications.

# PRODUCTS

## PHARMACEUTICAL PACKING MATERIAL

We supply different kinds of Pharmaceutical Packaging Materials to chemists, hospitals, etc. paying complete attention to quality and not missing out on the details. Since these materials are used for transporting chemical materials, we try our level best to give you a finish that is hard-core and that too at prices that are some at par with the current industry norms.

OXO BIODEGRADABLE PRODUCTS

## What is “Oxo-Biodegradable” plastic?

- petroleum-based plastic + small amounts of metal salts
- metals speed up fragmentation when exposed to oxygen and heat
- shortens degradation from hundreds of years to months/years
- biodegradation of remaining fragments debated
